

Rehearse the call. *Before the call comes in.*

FOR RESILIENCE LEADS
HEADS OF RISK, BCM, CISOS
& CHIEF OF STAFF

IR · 01
INTERNAL CRISIS SIMULATION

Put your *own* exec team through the worst day.

Run truly immersive crisis simulations with your own management team — in minutes, not weeks, and tailored to the risks that actually keep you up at night. A platform built for the resilience leads who turn cyber, operational and reputational risk into a board-level conversation.

BUILT FOR IN-HOUSE

MULTIPLAYER · 7 ROLES

LIVE BROADCAST TV

LONDON · EST 2024
V 1.0

§ THE PROBLEM

Annual tabletops are a tick-box. Plans look fine on paper, but when the call actually lands at 02:00 nobody has decided who briefs the board, who briefs the regulator, or who goes on camera — and the muscle memory simply isn't there.

§ THE ANSWER

Build the muscle memory. Stand up a simulation that mirrors your organisation, run it with your own leadership team, and walk into the next board update with evidence of preparedness — not a slide that says “we have a plan.”

<h2 style="font-size: 3em; color: #f0e68c; margin: 0;">01</h2> <p style="margin-top: 10px;">Your org, <i>not a template.</i></p> <p style="font-size: 0.9em; color: #c0c0c0;">Scenarios that exactly mirror your sector, jurisdiction, regulators, supply chain and named vulnerabilities. Your CEO recognises your own organisation in the brief on slide one — not a stand-in case study with the names swapped.</p> <p style="font-size: 0.8em; color: #c0c0c0; margin-top: 20px;">BESPOKE · YOUR ORG</p>	<h2 style="font-size: 3em; color: #f0e68c; margin: 0;">02</h2> <p style="margin-top: 10px;">Minutes, <i>not weeks.</i></p> <p style="font-size: 0.9em; color: #c0c0c0;">Drop in your organisation profile and hit generate. The platform builds a complete scenario — inject timeline, role briefs, MCQ quizzes, tutorial slides, training videos — in the time it takes to make a coffee. No more six-week planning cycles to stand up one drill.</p> <p style="font-size: 0.8em; color: #c0c0c0; margin-top: 20px;">FROM BRIEF TO READY</p>	<h2 style="font-size: 3em; color: #f0e68c; margin: 0;">03</h2> <p style="margin-top: 10px;">Nine categories. <i>100+ examples.</i></p> <p style="font-size: 0.9em; color: #c0c0c0;">A library spanning the full risk surface — cyber, operational, financial, geopolitical, environmental, reputational and beyond — mapped to the perils on your risk register, with over a hundred worked examples to pull from.</p> <p style="font-size: 0.8em; color: #c0c0c0; margin-top: 20px;">RISK-REGISTER ALIGNED</p>	<h2 style="font-size: 3em; color: #f0e68c; margin: 0;">04</h2> <p style="margin-top: 10px;">The full <i>leadership team</i> in the room.</p> <p style="font-size: 0.9em; color: #c0c0c0;">Up to seven exec roles playing concurrently — CEO, CFO, CIO, CISO, CLO, CMO, PRO. A real-time host dashboard, red-team and support-team requests, panic button — and live broadcast TV interviews delivered on camera mid-session. The closest thing to the real day, without it being the real day.</p> <p style="font-size: 0.8em; color: #c0c0c0; margin-top: 20px;">BOARDROOM-GRADE</p>

§ HOW RESILIENCE LEADS USE IT

A platform built for the teams that *actually have to answer the phone.*

SIX WAYS
TO EMBED REHEARSAL
INTO THE OPERATING RHYTHM

01 · Generate

Scenario generation in *minutes.*

Brief the platform with your industry, jurisdiction, regulators, supplier dependencies and headline risks. It returns a complete scenario — brief, simulated message threads, MCQ quizzes, tutorial slides and a video plan — ready to host. Edit the XLSX and reupload to layer your own framing on top.

02 · Library

A library mapped to your *risk register.*

Nine incident-type categories and over a hundred worked examples. Spin one up, swap in your details, and you are ten minutes away from a polished brief tailored to your top-five risks — ready to walk into the room with.

03 · Multiplayer

Multiplayer that scales to *your leadership team.*

Host a live session with up to seven concurrent exec roles — CEO, CFO, CIO, CISO, CLO, CMO, PRO. A real-time host dashboard exposes per-role metric dials, red-team and support-team routing, and pause/resume controls so you can intervene without breaking immersion.

04 · The Moment

The immersive broadcast TV *experience.*

No other tabletop platform does this. Mid-scenario, the executive on the spot finds themselves on camera with a journalist — in real time. Your CEO sees themselves on screen, the camera light comes on, the interview happens, and the rest of the team has to scramble in parallel. It is the moment your exec team remembers — long after the drill is over.

LIVE · ON AIR

05 · Tokens

Single-player drills for the *C-suite.*

Issue single-player tokens so the CEO, the CFO or the board chair can run a version of the scenario any time — before a board meeting, before a regulator submission, before a results call. Continuous preparedness, not an annual event.

06 · Board Evidence

Board-ready *evidence,* every time.

Every session produces a record — who played, which decisions they made, where the team hesitated, how cleanly they escalated. The kind of evidence your board, your regulator and your auditors actually want to see — not a sign-in sheet from last year's tabletop.

GET YOUR TEAM READY

Walk into the next board update with *evidence,* not adjectives.

Fifteen minutes is all we need to show you the host dashboard, the unique immersive live-TV experience, and walk through how it would work for your team.
